

## Eco Pellets Organic Fertilizer 2:2:3 (7)

### Gardens – Summer & Winter

Eco Pellets is a unique blend of the highest quality organic fertiliser and natural minerals, specifically formulated for the most effective and safe feeding of all your garden plants.

Eco Pellets promotes natural, healthy plant growth. Essential plant nutrients are released slowly into the soil, stimulating microbiological activity, making further nutrients available to the plants.

Eco Pellets also helps the development of healthy, well structured soils. It promotes microbial and earthworm activity which bind soil particles together to improve soil structure and tilth. Better soil structure allows roots to grow unrestricted in a nutrient rich environment.

Eco Pellets is manufactured from manure, one of nature's oldest and most natural fertilisers. This product is composted, filtered and weed free. It is then pelletised for easier and cleaner handling.

### Slow Release Applications

#### **Fruit Trees:**

Pre Planting: 60g per hole. Apply to base of hole and cover with 10cm of soil.

For poorer soils add a further 30g. Water well.

#### **Established Trees:**

500g per tree per year of growth once in Spring and once in Autumn.

#### **Vegetable and Flower Beds:**

150g per sq. meter prior to planting and 100g per sq. meter every 6 weeks during the growth period.

#### **Roses:**

150g per plant, applied every 6 weeks throughout Spring, Summer and Autumn.

A further application in Winter is recommended.

#### **Shrubs:**

100g per shrub applied once in Spring and once in Autumn.

#### **Lawns:**

New and established lawns 100-200g per sq. meter - water well.

### Analysis (Approx) (dry weight basis) %W/W:

Moisture		130	g/kg
Nitrogen	N	20	g/kg
Phosphorus	P	20	g/kg
Potassium	K	30	g/kg
Calcium	Ca	137	g/kg
Magnesium	Mg	11	g/kg
Zinc	Zn	685	mg/kg
Manganese	Mn	570	mg/kg
Copper	Cu	75	mg/kg
Iron	Fe	3577	mg/kg
Sodium	Na	6477	mg/kg
Baron	B	52	mg/kg

#### **Product Density:**
